Company's Overview

Jai Bharat group takes pride as being one of the leading, oldest and the largest manufacturer of Guar Gum products in India.

The group has two manufacturing facilities - Jai Bharat Gum & Chemicals Ltd. for manufacturing of Guar Splits and Jai Bharat Polymers LLP. for Guar Gum Powder.

Public limited Company with Mr. Ravinder Kedia as a major share holder.

Our unrelenting commitment to provide our customers with the best quality since 1981 has kept us going.

Both the manufacturing facilities are located at a place called Siwani, in the state of Haryana, which is known for producing high viscosity guar seeds, thus giving us a competitive edge. This place is just 100 miles away from the Country's Capital - New Delhi.

Xanthan Gum

Our Strengths

Jai Bharat is the largest Manufacturer of Guar Splits in India, manufacturing the best quality Splits, used as a Raw material for manufacturing Guar Gum powder. We use our own Splits for manufacturing Powder.

CSR initiatives taken for the Sustainability of the Environment, Society and Our own people.

As the raw material price i.e. Guar price fluctuates on an every-day basis, we make sure that the customers are not left behind and are continuously being updated with the markets. Thus, we provide our customers with daily and updated prices.

Using the Arbitrage in Future markets and FIFO method for inventory keeping, we always have fresh crop seeds for manufacturing, ensuring the best quality throughout the year!

Involvement of Company's owners in procurement since past 3 decades makes us different as what is at stake when it comes to quality, no one other than the owner can understand it better.

We have Robust Systems in place at Jai Bharat to ensure the delivery of quality that we promise. There is an hourly quality check of on-going manufacturing followed by the batch quality check of the whole batch.

Locational advantage - Sitting in and procuring from the hub of Best Quality Guar seed Growing Area of the World i.e. Haryana, India, where Guar is grown on the irrigated Land.

100% power backup & advanced controls for continuous process.

In house Q/C laboratory manned by experienced technicians.

Long term linkage with Farmers for Assured best quality seeds, also making the Supply Chain Lean!

State-of-the-art, highly reliable, Automated manufacturing plant, with Lean operations due to minimal motion during manufacturing.

Use of gas/Diesel in heaters instead of LPG Cylinders(the most common practice in Guar Gum Industry) to ensure controlled temp resulting in uniform quality of powder.

Warehousing Facilities

With the world-class production facilities comes the requirement of world class warehousing facilities. To counter which, we have a total of 5 different warehouses, strategically located throughout the premises, with a total capacity of 30,000 M.T. to cater every need of our customers.

Quality Control

We also have strict standards when it comes to our quality check processes and never settle for less. We're determined to have a perfect quality check system in order to make sure that our customers get what they have ordered. Their 100% satisfaction is what motivates us to do better than the best. Further, the checks include hourly quality monitoring of the powder during the online manufacturing so that rejection can be eliminated at a very early stage.
